TWENTY-NINTH YEAR

## THIRTY-TWO BRAVE MEN PURSUE THE OUTLAWS

### Heavily Armed Poses Will Hunt Desperadoes to the Death.

### Believed That Butch Cassidy Led the Band That Murdered Tyler and Jenkins.

(Special to The Herald from a Staff Correspondent.)

Thompson, Utah, May 28.—Twenty-eight determined men are on the trail of the murderers of Sheriff Tyler of Grand county and Sam Jenkins, the cattle-owner. The sheriffs of Emery, Salt Lake, Utah and Carbon counties are in charge of these men, who are settled in their purpose to exterminate the cattle rustlers and train robbers who have infested this section. They are going to follow the trail of the murderers through two and three states if necessary.

The whole eastern end of the state has arisen, and those men who hate the cattle thieves have turned out against them. The small ranchers who befriend them, partly through fear, and partly because they, too, profit by stealing, will lay very low for a time. Any attempt to shield the rustlers in their flight will likely result in quick justice. For these hardy frontier sheriffs and cattlemen, who have for years taken their lives in their hands to protect property, are united and harmonious in their determination to rid the state of the cattle rustlers.

### Have a Good Start.

But unfortunately the three men, possibly five, who shot down Tyler and Jenkins, have the start of the pursuing posse by many miles and hours. They are at least sixty miles and thirty-six hours in advance of the foremost posse, and forty-four hours ahead of the second crowd, which left Thompson's Springs this afternoon. Whether or not they will ever catch the fleeing outlaws is questionable. Men who know the country that must be traversed, and who understand the difficulties are doubtful. They fear that the three men who were seen at Turner's place on Saturday evening will be able to get far away.

Another difficulty confronts them. There is no certainty as to the direction in which they have gone. It is either east into the White River mountains in Colorado, or north to Brown's Park and on into the Hole-in-the-Wall country in Wyoming. Until the posse reach Turner's, which they, or at least one of them likely did this evening, nothing will be known of the trail taken by the outlaws from there. The Turners were told by the three men that they were going to the White River mountains. The sheriffs are divided as to whether that statement was meant to be misleading or was truthful.

### Butch Cassidy Again.

A most important theory was developed today, since these frontiersmen have had time to think about the tragedy. It is now believed that the notorious "Butch" Cassidy, the man who is generally supposed to have been with George Curry, the leader in the Union Pacific robbery last June, is the leader of the gang which killed Tyler and Jenkins. Descriptions of the men as given by Herbert Day, who saw them, to persons here who have known Cassidy, make it appear almost certain that the well known train robber is of the gang.

It is believed that three men who came through Moab on Wednesday evening are the men who did the killing. Thus, with the occasion on which they were seen at Turner's, makes three times they have come to light. The men who know Cassidy declare that he fits the descriptions. Sheriff Alfred of Carbon county, who knows Cassidy, said: "I believe he is the man we want; these descriptions fit, and there are other circumstances to confirm my opinion."

There is another fact of importance. It is settled that Curry was in the Union Pacific robbery, and if Cassidy, who is known to have been one of them, was with him, the Little Book Cliffs of Grand county have been the retreat of the Union Pacific train robbers since December. They have been hiding there while many sheriffs of the west and noted hunters of outlaws have searched for them in vain. There was placed upon the head of each one of the six men who are believed to have held up the Union Pacific a price of \$2,000. The printed notice which hangs in the waiting room of the Little Rio Grande station here has been read and re-read today.

These outlaws who have wintered in Grand county are the most desperate train robbers of the west. Even if they are not caught it is unlikely that they will, after this man hunt is finished, come back to Utah for many months.

### Two Poses Start.

Two posses went out from Thompson's today. They are led by Deputy Sheriff Herbert Day and R. D. Westwood of Moab, and by Sheriffs Prece, Howells and Allred. The first posse, composed of eleven men, had in it Sheriff Leamaster of Emery county, Bob Bryant of Moab and others whose names could not be learned. It left at 1 o'clock this morning, with a rather scant outfit of provisions, and will push on through to Turner's. Every man is armed to the teeth. Each carries a rifle and a pistol or two. Almost every make of firearm known is in the party. There are the old-time rifles and those of the newer make which use smokeless powder, the small calibre variety, which will kill at two miles.

Most of the eleven men in this party

know the country thoroughly, and some of them are acquainted with the mountain fastnesses of western Colorado. They will pick up the trail at Turner's and follow it across Colorado, south into New Mexico, or north into Wyoming.

### Sheriff Howells' Posse.

The second posse, which left at 4 o'clock, contained the nine men which Sheriff Howells brought down from Salt Lake. Sheriff Prece of Utah county, Sheriff Alfred of Carbon, Joe Harris of Westwater and Bill Little of Moab. It had several pack horses, loaded down with provisions, blankets and cooking utensils. It is one of the best equipped posses that has ever gone after bad men in Utah, and the men hunters said they were outfitted for several weeks. This crowd will go straight to the Webster City Cattle company's ranch on Hill Creek, eight miles beyond the scene of the killing. From there it will go on to Turner's place and likely catch up with the first party, which went out under Day and Westwood.

There are some fine shots in this posse, as the practice work this morning showed. Several of the men shot at a white rock a yard or two away from the hill. Though it is not much larger than a man's hand several of the shooters hit the mark. Deputy Sheriff Gold-man of Murray seemed to be able to strike it almost every shot.

### Pacific Express Loss.

The murder of Tyler and Jenkins has brought to light facts about the Union Pacific train robbery which have been hidden by both the railroad company and the Pacific Express company. I have learned on the best authority that the Pacific Express company in that holdup lost \$28,000, including about \$5,000 of unsigned bank notes. At the time Curry was killed, the Pinkerton man, Murray, who had been working on the case, came here to identify the outlaw. He said at that time that the express company had lost \$28,000 and that Curry was the man who made these statements and as he was in a position to know the amount lost it is presumed that he was telling the truth. Working on these facts the most plausible theory is that the men who murdered Tyler and Jenkins were not cattle rustlers by profession. They had come in here to meet Curry and have a division of the spoils.

At the time of Curry's death his father came here from Chadron, Neb., and he showed "Doc" King, one of the managers of the Webster City Cattle company, letters from the son in which it was told that he intended to remain here during the winter. Curry has told others he was going out in the spring. While he was in the back cliffs he was associated with Tom Dilley, Joe Rose and another rustler. He worked with them because he wanted to hide for the winter. All this time he had a cache of a large share of the Pacific Express booty which was to be divided in the spring. Soon after he was killed, that is on April 22, three men appeared at the Webster City Cattle company's ranch and asked about Curry. They talked to one of Mr. Fullerton's employees quite freely about him and the money which they had been associated with. They said they were to have met him in the mountains and when informed that he was dead they said further that there was a cache of \$6,000 in the mountains which they wanted to find.

### Returned From Arizona.

Since then they have not been seen. But last Wednesday three men, two of dark and one of sandy complexion, passed through Moab from Arizona. One of the dark men was tall and the other was of medium height. Each was about 35 years of age. The other man put down as Cassidy, was of good build, about 30 years of age, clean shaven and with sandy hair. The description fits "Butch" Cassidy and the two Jones brothers, or Cassidy and Harvey Curry. The same description fits the men seen at the cattle company's ranch on April 22, and that given by Oscar Turner of the men who passed his ranch Saturday evening. Not only that, but Deputy Sheriff Day and Merit Wade, who saw Tyler and Jenkins killed, give the same description. It is believed the three men who sought Curry's cache were the same and that becoming frightened at the man-hunt then on foot, they gained courage lately they came north again to find the cache. They were met by Tyler and his posse just before or after they found the money. From the direction in which they were going cattlemen are inclined to think they had recovered the booty.

### May Have Been Five.

There are indications that there were five outlaws in the gang that killed the two men in Hill Creek canyon. There is a rumor here that two men went back up Hill Creek canyon after the shooting and came out over the divide into the Green river valley, thirty-five miles north of here. However, the several sheriffs here did not think the clue strong enough to follow.

### Inquest Held.

An inquest on the bodies of Tyler and Jenkins was held here this morning, and the jury returned a verdict that they came to their death at the hands of unknown parties while in pursuit of outlaws. The inquest was presided over by Justice Hinkley, and F. B. Hammond, William Somerville and L. S. Taylor of Moab were the jurors. County Attorney J. B. Corbin of Grand Precinct, who saw them in Hill Creek and who cleaned the bodies, were examined.

After the remains of the two men were brought in last night Undertaker Bannister of Grand Junction, who had come with coffins, examined them. The bodies were horribly mutilated by pistol and rifle shots. Jenkins had six

WEATHER TODAY.

Forecast for Salt Lake Today Is:  
Fair and cooler.

NUMBER 360

MAN HUNT COVERS THREE STATES.  
The scene of the murder of Sheriff Tyler and Samuel Jenkins is indicated by the cross north of Thompson's on the above map. The dotted line extending northwesterly is the route the robbers are supposed to have taken, they being headed for Wyoming.

## HITS BACK AT GERMANY TRY TO SLAY A FAMILY

### Representative Bailey Introduces Bill in Congress.

### FIXES HIGHER DUTIES

### MEASURE IS BACKED BY LIVE-STOCK INTERESTS.

### Provisions Give President Power to Increase the Tariff on German Products in Retaliation for Similar Action by That Country Against United States.

Washington, May 28.—As the result of conferences today between President J. W. Springer of Denver, of the National Livestock association and members of congress, relative to the German meat inspection bill, the following bill was introduced in the house of representatives by Representative Bailey of Texas:

"That whenever the president of the United States shall be informed that the government of Germany has passed a law imposing prohibitory duties on meat products which may be imported into that country from the United States, he shall issue a proclamation fixing a time when all articles produced or manufactured in the German empire when entered for consumption at the ports of the United States, shall pay a duty of 10 per cent in excess of the duties imposed thereon prior to the passage of this act; and all such products and manufactures, when so entered for consumption after said time fixed by the president, shall pay such increased duties."

The bill was referred to the ways and means committee, and Mr. Springer said that he was confident it would have a view to urging early action.

### Discrimination Against Stock.

He said as to the measure: "The National Livestock association is the largest organization of its kind in the world, representing over \$300,000,000 of livestock. It is the only association of the American Short Horn Breeders' association, the National Hereford Breeders' association and some hundred livestock organizations. We feel that the livestock industry is singled out by the German empire for direct discrimination, and all the stock people will feel the effect of such action. They feel, too, that the time has come for the allied stock interests of the United States to speak out in no uncertain tones, and they hope to direct the attention of congress and the government to the situation. All the livestock states are deeply interested in what is being done, and are desirous of having adequate measures adopted to overcome this discrimination by Germany."

### Clove's Nomination Confirmed.

Washington, May 28.—The senate today confirmed the nomination of J. Clove to be postmaster at Provo City, Utah.

## ECLIPSE SEEN WITH SUCCESS

### Clear Skies Give Astronomers Rare Opportunity.

### PHOTOGRAPHS ARE MADE AT MANY POINTS

### Shadow Leaps Suddenly in Front of Sun.

### Twilight Hue Succeeds for a Short Time During Which Birds Go to Roost—Dusk is Dissipated by a Flash of Light—Seen by McKinley, Scientists and Royalty—Planet Eros is Rediscovered at Chamberlain Observatory.

Washington, May 28.—Advises received at the naval observatory from its agents in various points in the south show that favorable weather prevailed for observing the sun's eclipse today, that the contact occurred very close to schedule time, and that the programme arranged was carried out without a hitch. Three parties were sent out from the observatory, viz: One to Pinehurst, N. C., in charge of Professor Aaron N. Skinner; one to Barnesville, Ga., in charge of Professor Milton Updegraff, and one to Griffin, Ga., in charge of Professor Stimson J. Brown.

The eclipse arrived just a few seconds ahead of scheduled time, but the irregularity was so slight that an ordinary observer could not have discovered it. The trained gazers claim that the contact came from five to eight seconds before it was due, but the difficulty of telling just when the actual contact began was so great because of a cloud which passed that even they cannot quite agree among themselves. They do agree, however, that it was one of the most remarkable predictions in the history of astronomy. It being doubtful if ever before the time of the arrival of an eclipse was so accurately announced in advance.

### Circles Become Crescents.

Mr. Boeger, who watched through the twenty-six-inch instrument, took particular pains to see whether the other phenomena promised, that is caused by the sun's rays falling through the leaves of trees, was present, and he was rewarded for his pains. With an unshadowed sun the rays streaming through leaves of trees, which are without light on the ground beneath. While the shadow was on the sun today Mr. Boeger found that these circles were changed to crescents.

### Two Notable Discoveries.

The two most notable features of the day were the discovery by Professor Lord of Ohio State University, who believes he obtained results that tend to prove that the mysterious matter which forms the corona is to be found also in the sun's atmosphere, and the existence of protuberances on the sun as reported by Professor Pickering of Harvard. What constitutes the gaseous element surrounding the sun, however, has not been determined.

### Arrangements Are Perfect.

Barnesville, Ga., May 28.—Amid a perfect arrangement of detail, with good weather conditions and without hindrances or defects to prevent success, the varying phases of the solar eclipse were observed by the government astronomers at the United States observatory station here today. The photographic work was unusually successful, five cameras including twenty exposures, all of which are believed to be good. The large photo-heliograph produced three perfect negatives and one flash negative, just as totally ended.

### SLEEPING CAR ROBBED.

One Man Relieves Passengers of Their Valuables.  
Kansas City, May 28.—A Star special from Falls City, Neb., says the passengers on the sleeping car of train No. 1 on the Missouri Pacific, which left Kansas City last night at 9:25, were robbed this morning between here and Stella by a lone highwayman who compelled the porter at the point of a revolver to proceed and aid him. He had to work fast, as he had only from ten to fifteen minutes before the train should slack up a mile east of Stella, where passengers back at the point of his revolver, and escaped.

### Seen the Planet Eros.

Denver, Colo., May 28.—While Professor H. A. Howe was waiting this morning about 2 o'clock in the Chamberlain observatory for the sun to rise and the eclipse to begin, he made one of the most important observations of the year, the rediscovery of the planet Eros. This tiny planet, which was discovered only two years ago at the Berlin observatory, has been looked for since last September, the time when, according to calculations, it should emerge from behind the sun. Astronomers all over the world have been scanning the skies for it, but without success.

### Burglars Steal From Bank.

Kansas City, May 28.—A Star special from Sturgeon, Mo., says: Burglars opened the safe of the Clark Exchange bank last night, secured \$8,000 in currency and escaped. The bank carried \$2,000 burglar insurance.

### DYNAMITE UNDER CAR.

Two Officers Seriously Hurt In the Wreck.  
St. Louis, May 28.—A car on the Bellefontaine line of the Transit company was partly wrecked by an explosion of dynamite placed on the track by unknown persons at Newhouse avenue and Twentieth street late this afternoon. Officers Steel and O'Keefe, who were detailed to protect the car, were seriously injured.

### Ex-Commander of G. A. R. Dies.

Minneapolis, Minn., May 28.—Judge John P. Rea, commander-in-chief of the G. A. R. in 1873, died at his home tonight of a disease pronounced hardening of the brain.

## ROBERTS IS 18 MILES FROM JOHANNESBURG

### Drives the Demoralized Burgher Army in Front of Him From One Position to Another.

### French and Hamilton Engaged in Battle—Result Not Yet Known—Boers Reported in Panic.

Cape Town, May 28.—It is rumored here that General French has had the Boer communications between Heidelberg and Boksburg, within a few miles of Johannesburg.

London, May 28.—Midnight.—The war office just before midnight published the following dispatch from Lord Roberts:

"Kilip River, Transvaal, May 28, 5:25 p. m.—We marched twenty miles today and are now eighteen miles from Johannesburg. The enemy had prepared several positions where they intended to oppose us, but they abandoned one after the other as we neared them."

"We pressed them so hard that they had only just time to get their five guns into train and to leave as soon as some of the Westralian infantry dashed into it."

"French's and Ian Hamilton's forces are apparently engaged with the enemy about ten miles to our left, as firing has been heard since noon."

"H. J. Whigham has just returned to Lourenço Marques from Pretoria, where he went disguised. He wired that Kruger has all the arrangements made for flight, presumably to Holland. A special train, provisioned, is always ready to steam up."

"The train waits some distance from Pretoria."

"The farmers near our line of advance are surrendering with their arms and horses."

"Runde occupied Senekal on May 24. No report of what took place has reached me yet."

"The Morning Post has the following dispatch from Lourenço Marques, dated Monday:

"President Kruger has issued a public declaration in which he promises to leave Johannesburg, or to remain there at the peril of their lives, as it may become necessary to destroy the town and the mines."

"The Lourenço Marques correspondent of the Times, telegraphing Monday, says:

"Commandant General Botha consulted the Transvaal government a few days ago, and, in the strongest terms, urged capitulation, recognizing that the struggle is utterly hopeless. Neither the Transvaal nor the liberal use of the Johannesburg can induce the men to stand."

"Steyn is equally emphatic for peace, but Kruger is still obstinate. The strong feeling of the Pretoria peace party, however, may at any moment carry the point."

"While the reports of a possible border conflict between the Boers and Portuguese are not credited here, the uneasiness of local officials continues. All sorts of sensational rumors are afloat. The latest is of the hauling down of the Portuguese flag at the Portuguese consulate in Pretoria. The Boers are undoubtedly strengthening their commands on the border."

"According to a special dispatch from Lourenço Marques there are 900 Boers in the Portuguese border."

### Transvaal Is Demoralized.

H. J. Whigham in a dispatch to the Daily Mail dated May 28, says:

"The demoralization of the Transvaal is remarkable. Panic and confusion prevails everywhere. Everyone is weary of the war, and the coming of the British. Operations were being carried on for encircling Pretoria with telegraphic communications. Fourteen points in the line of defenses were connected with headquarters and the states artillery, but this apparently was the only defensive measure adopted. There were no other visible preparations."

"Not much gold is likely to be found in the treasury. The salaries of the officials and judges have not been paid, or have been paid only in national bank notes, which will be worthless when Lord Roberts arrives. The seat of government will be removed to Watervalbovan, a small station on the Delagoa Bay railway line and then, if necessary, to Lydenburg."

### Dislike the Flank Movements.

"Both President Steyn and President Kruger complain bitterly of Lord Roberts' unfair tactics in refusing to meet the Boers in positions chosen by them and in eternally turning them by flank movements. The Boers are not prepared to meet the British in a conventional battle, but they are prepared to fight a guerrilla war, and they are packed like sardines in trucks."

"The government is now endeavoring to reassure the public by telling them that the British will not outrage and plunder them, but it is too late. The previous misstatements are bringing their rewards. Food is very scarce and prices rise high."

### Will Lay Infernal Machines.

"One form of infernal machine which meets with much approval is to be laid under the rails of various lines. A pressure of some tons weight of the engine will cause this to explode with most terrific effect. Many of these machines are being made at the arsenal and great caution will have to be employed in neutralizing them."

"The proposal to release the British prisoners of war is due to this cause. Members of the government and of the Volksraad express approval of the proposal, but President Kruger is violently opposed to it."

### Only Partial at Berkeley.

Berkeley, Cal., May 28.—The partial eclipse of the sun was observed this morning at the student observatory of the University of California by Professor H. A. Howe.

### Will Agitate in America.

"The government has arranged to continue the agitation against the British occupation of the two republics on the continent of Europe, in Great Britain and in the United States. Great efforts are to be made in this direction and no expense will be spared."

I have excellent reasons for believing that the Dewaraplasten rights have been sold to a French syndicate, with the sanction of the Volksraad. The government hopes by this means to bring about a French intervention for the protection of French rights in the Witwatersrand, and thus to cause England grave difficulties.

"The conduct of United States Consul Hay is equally disreputable, and meets with universal praise alike from Boer and British sympathizers."

### Botha Pleads With Kruger.

Another dispatch from Lourenço Marques says: "General Louis Botha is at Pretoria urging President Kruger to arrange for peace terms. Botha is a burgher from Laining's Nek passed through Heidelberg last week. Wounded officials with their families are leaving Johannesburg for Cape Town, and Lydenburg. President Steyn occupies the house of a British resident at Pretoria."

"Passengers arriving at Lourenço Marques Monday from Johannesburg say it was believed there that the British would not be at the capital for a month. Nevertheless there was much unrest and anxiety."

"The Times publishes the following from Newcastle, dated Sunday: "Four hundred Boers are advancing toward Dundee. There is no fear that our communication will be cut."

### Oath Prescribed by Buller.

The following is the oath which Sir Redvers Buller administers to rebels: "I, a British subject, do hereby swear that I will be forced by the queen's enemies to take up arms against her majesty's troops, I now hand in my horse, rifle and ammunition, and if permitted, I will proceed direct to my farm and remain there as a loyal British subject until her majesty's pleasure, I promise not to communicate with, aid or abet her majesty's enemies, under penalty of death."

Carl Cronje, a son of Piet Cronje, signed the declaration, but arms were subsequently found on his farm."

A dispatch from Mafeking, dated May 23, says the total casualties since the commencement of the siege were 802. Of these 400 were Boers, 200 were killed, 200 wounded, 190 men of 575 privates were killed, wounded or missing.

In the house of commons today the government reported negotiations for peace with the Transvaal.

The rumor that Johannesburg has been occupied by General French, coupled with the fact that the Boers had agreed to surrender unconditionally, served considerably to improve the Kaifir market this afternoon.

### SLIGHT TROUBLE FOR RUNDLE.

### Boers Are Driven From Senekal by a Few Shells.

Senekal, Sunday, May 27.—General Rundle, with artillery, the yeomanry and the Witloirs, Middlesex and Leicesters regiments, under Major Dalbaird, has occupied Senekal, whence the Boers were driven by a few shells. A field gun was a number of other Boers were killed.

The British casualties numbered eleven.

### AMERICAN BOY HONORED.

### Kruger Sends Private Car to School-boy Messenger.

Durban, May 28.—James Smith, the American district messenger boy who is carrying a message of sympathy from Philadelphia and New York school boys to President Kruger, has arrived at Lourenço Marques, and President Kruger has sent his private car to convey him to Pretoria.

The French liner Glorioso arrived here today with many Transvaal refugees.

### ANOTHER COTTON FAILURE

### Seymour Johnson & Co. of New York, Close Doors.

New York, May 28.—Seymour, Johnson & Co., stock, cotton and grain brokers, No. 17 Broadway, announced their suspension on the New York stock exchange and cotton exchange and the Chicago board of trade this morning.

Mr. Johnson made a statement in which he said: "Our losses are about equally divided in the stock and cotton markets. Lending loans out of the situation, our liabilities are not likely to exceed \$200,000. The loans, if counted among our liabilities, will add another \$425,000. They are well margined and can be taken care of."

Like Price, McCormick & Co., the firm went in for a wire business, and though their connections were not so extensive they were large. The house did a big commission and speculative business in cotton, wheat and stocks. It was cotton that broke them.

### MORE FILIPINOS YIELD.

### General MacArthur Announces Two Surrenders.

Washington, May 28.—The war department has received the following telegram from General MacArthur at Manila, dated today: Three officers, fifty-six men with forty-five rifles surrendered unconditionally at Cuyayan yesterday. Three officers and forty-six men with fifty-five rifles surrendered unconditionally today at Talar. The spontaneous surrenders are very encouraging.

### NONE BOAT IN DISTRESS.

### Schooner Arthur B. Is Towed Into Harbor.

Port Townsend, May 28.—The schooner Arthur B., Captain Ackerman, sailing from Seattle for Cape Nome last Wednesday, was towed in at 11 o'clock to-night in distress. She was fitted out by the Chicago-Alaska Commercial company, and eighteen persons were aboard beside the crew.

Seattle, Wash., May 28.—The steamer San Blas sailed for Cape Nome tonight with 510 passengers and 1,800 tons of freight. She was advertised for the trade for the first time two weeks ago.
